On the Lake Washington/Cedar/Sammamish Watershed
Draft Chinook Salmon Conservation Plan

This scientifically based plan focuses on the **habitat** conditions that limit our local wild Chinook salmon populations. It recommends land use actions, restoration and protection projects, and supporting opportunities for public involvement. The conservation plan is a collaborative effort among 25 jurisdictions, 2 counties, scientists, citizen groups, public agencies, community and business groups. **Your input is necessary to ensure the success of this plan.**

Public Review Period: November 12 – December 17, 2004

Access online @ <http://www.dnr.metrokc.gov/wrias/8>,
or view hard copies at City Halls and Libraries.
